Dear Hiring Manager, I am writing to express my interest in the Graduate Trainee position at UBS as advertised (Job Reference #298676BR). With a Bachelor's degree in Computer Engineering, along with hands-on experience in developing mobile applications and backend systems, I am excited about the opportunity to work on real-world projects that impact the company and its clients.

During my internships, I showcased rapid learning by proficiently acquiring new technologies and integrating them effectively into projects to fulfil specific requirements and enhance overall project outcomes. I spearheaded the development of applications with a focus on seamless user interaction, engaging frontends, and efficient backend systems for optimal data management. These experiences have honed my programming skills in languages including Python, Java, and JavaScript, as well as my knowledge of data structures, algorithms, and software development methodologies.

UBS's emphasis on cutting-edge technologies such as artificial intelligence, machine learning, and cloud computing aligns perfectly with my passion for innovation and problem-solving. I am excited about the opportunity to analyze complex data sets, collaborate with experienced engineers, and contribute to the design, development, and testing of software applications and systems. I am confident that my proactive mindset, effective communication skills, and keen interest in financial markets and technology make me a strong candidate for this challenging internship opportunity.

I am thrilled at the prospect of joining a global wealth manager like UBS and contributing to shaping the future of Banking Technology. I am eager to learn, grow, and collaborate with industry leaders and experts to drive impactful projects. Thank you for considering my application. I look forward to the possibility of discussing how my skills and experiences align with the goals of UBS.

Sincerely,
Mihir Vora
